Dave Czaplewski Promoted to Vice President of Sales & Marketing at Permabond Engineering Adhesives

SOMERSET, NJ – Permabond Engineering Adhesives, developer and manufacturer of adhesives and sealants, is pleased to announce the promotion of Dave Czaplewski to Vice President, Sales and Marketing, effective immediately.

Since joining the company in January 2007 as the National Sales Manager, Czaplewski has played an integral role in developing and growing the company's product line to include many new technologies and created new distribution channels.

"Dave has been a tremendous asset to the Permabond team in his role as National Sales Manager," said Paolo Grossi, GM of Permabond Engineering Adhesives. "He has done a great job of boosting sales, recruiting distribution and solidifying our existing relationships with our distributors and customers."

Grossi explained that Permabond has always been recognized as a leader in cyanoacrylate and anaerobic adhesive chemistries. "Since Dave joined us that image has been elevated to Permabond being recognized as a solutions provider of adhesives and sealants – whether it is epoxy, UV, acrylic, cyanoacrylate, anaerobic, other technologies or custom formulated solutions. The new opportunities and growth Dave has created demonstrate his professionalism and his intrinsic understanding of the adhesive and sealants industry."

About Permabond

Permabond develops and manufactures engineering adhesives and sealants for assembly, manufacturing, repair, and maintenance. Permabond technologies include cyanoacrylates (instant adhesives), anaerobics (for threadlocking, retaining, gasketing and pipe sealing), structural adhesives, and UV curable adhesives. Permabond offers custom formulating for unique requirements. Products are sold worldwide through authorized distributors.
